

Sophisticated Security Solutions For Today's Complex Environments

Protection that meets even the government's most demanding security standards

Dynalectric Company, An EMCOR Company, can help you design, install, and maintain today's most advanced security solutions, including a full array of high-performance components from such leading manufacturers as Hirsch Electronics and American Dynamics. These components combine easy installation and use with some of the most formidable security features available, all of which satisfy the tough criteria of HSPD12.

In addition, Dynalectric has been South Florida's leading full-service electrical contractor for more than 30 years. During that time, we've helped businesses, government organizations, airports, and others obtain the seamless electrical solutions they need for optimum facility operation, energy efficiency, and cost effectiveness.

Our highly skilled professionals handle every aspect of your project, ensuring that you get the quality, reliability, and value you expect. Whether you're implementing a simple or complex standalone security system, or an integrated security and electrical network, you can count on Dynalectric to give you the power, performance, and protection you need.

We're Here for You.

OUR SERVICES

- Complete Electrical Distribution Systems
- Fire Alarm Systems
- Life Safety Systems
- Paging, Nurse Call & Audio/Visual Systems
- Security Systems
- Instrumentation Systems
- Network Design, Installation & Integration Services
- Voice/Data
- Premises Distribution Systems Design & Selection
- Structured Cabling Systems
- Onsite Maintenance Services
- Baggage Handling & Scanning Systems
- Runway Lighting & Signage Installation
- High-Voltage Preventive Maintenance & Splicing
- Subsurface Imaging

Advanced Security Systems: Protection for everything you value

→ **Flexible system designs adapt to existing and future needs**

- » Customized systems for any type and size of facility
- » Accommodates enterprise-wide applications
- » Offers cost control options by installing only the security devices needed
- » Flexibility of incorporating new features and functions without replacing existing components.

→ **Immediate and automatic multi-layered response**

- » Security system responds immediately — Lights turn on, doors lock down, & video cameras focus on the endangered area
- » Increase effectiveness by integrating security & non-security systems.

→ **Leading-edge video capabilities**

- » Cameras suitable for virtually every location, including indoors, outdoors, heavily vandalized areas, extreme temperature areas, & more
- » Sharp, clear images enable effective response
- » Linked cameras track intruders' from place to place
- » Digital video eliminates lengthy tape searches.

→ **Sophisticated privacy control and access monitoring**

- » Scramble pads prevent ID code & PIN number theft
- » Keypads visible only from directly in front of viewing field
- » Proximity ID cards track visitors from point-to-point
- » Advanced components, including smartcards and biometrics, add levels of protection
- » Centralized identity verification & door control reduces costs, increases efficiency.

→ **Versatile access options**

- » No time-consuming replacement of lost or stolen cards
- » Easy revision of badge expiration dates
- » Badge designs encourage display
- » Color coding enables clearer, on sight security verification
- » Automated event reporting, history logging, & management reporting functions.

The result is powerful, flexible security systems that effectively control costs and reduce risks, while enabling you to achieve your strategic continuity, growth, and profitability objectives.

What can Dynalectric do for you?

Protecting your people, facilities, and other assets is only one of the many ways in which Dynalectric can help you do your job smarter, more efficiently, and more profitably. From complete electrical systems to expert maintenance, Dynalectric is your single source for the expertise and technical skills you need to successfully address today's most challenging construction, building management, and security issues.

Behind us and you, there's EMCOR.

Dynalectric is part of EMCOR Group, a leading provider of electrical and mechanical construction, facilities services, and energy infrastructure. The EMCOR Advantage™ means:

- The financial strength of a Fortune 500® company
- Unmatched bonding capabilities
- An award-winning, industry-leading safety program
